

2-4 Session GP Partner Required – Elm Surgery, Plymouth

An exciting opportunity has arisen for a 2-4 session GP Partner to join our well established, hardworking and dedicated team.

We are fortunate to have some flexibility in the number of sessions/days we can offer and feel it is important to find the right person who shares our ethos and approach of putting patients first so would look forward to discussing and agreeing how we can make your availability meet with our requirements.

We provide primary care services to a population of 7000 patients predominantly living in Estover, Leigham & Mainstone which includes one residential home and Marjon University.
