

Facilitators notes

Headlines for making the most of your hospital post ppt

- **Medical teamwork**
Colleague support and handover. Division of workloads
- **Safe prescribing**
Goes without saying. In GP px on computer, no in-house pharmacists or experienced sisters to help
- **Multidisciplinary teamwork**
MDT working and allied health professional communication
- **Communication skills**
Patients, relatives colleagues (including GP) record keeping
- **How families behave**
Can be both most challenging and also rewarding part of the job- family are there watching you often
- **Learning/significant event analysis**
Trying to review the event happened from all angles and learn from what happened
- **Ethical issues**
Lots in hospital- capacity consent confidentiality end of life
- **The hospital-GP interface**
Seeing the job from the other side
