

GGPET

- Gloucestershire GP Education Trust
- Excellent organisation providing educational events for both GPSTs and GPs
- Runs evening, half and whole day courses throughout the year
- They put on some sessions for us on a Wednesday afternoon, including contraception update and some specific sessions for ST3s. These are on our programme.
- Hosts a week of GP education in May every year called “String of Pearls”, with sessions covering a wide range of topics. During this week there will be no half day release course on Wednesday but you will be expected to attend one session during this week (doesn't have to be on Wednesday so plan ahead to go to a session that you find interesting)
- Your membership of GGPET is paid for out of your study leave budget
- If you want to attend a course, including those they provide on our half day release course, you will need to book via their website. They can be popular so make sure you book ahead.
