

Knowing me knowing you meeting

Some suggestions

Them

Ask them about their country, customs and foods, the health service, how family medicine is organised.

Their family back home, hobbies, support in the UK

Undergraduate teaching re tutorials, how were they run?

Post graduate teaching, if and how was feedback given?

Post graduate experience?

Things that surprised them most about the UK?

Explore the thoughts and worries around their GP placement?

What they want out of their placement?

You

Tell them about your childhood

About the country, customs and foods and the health service

Your family and hobbies

Your post graduate experience

Discuss how tutorials are run and agree on a feedback strategy

Discuss their thoughts, worries and hopes

Going forward TW tips

Discussion around linguistics/language

? Presentation by GPST to staff in an education meeting about themselves

Using YouTube clips to help GPSTs understand how feedback works in UK medical education before going on to use their recorded consultations
