

SupportTT Yorkshire & The Humber

Dear Colleague

SupportTT YH has recently published the first episode of a podcast series on International Medical Graduate (IMG) doctors and their transition into the NHS and training in the UK.

The aim of the podcast series is to provide a platform for trainees, trainers and general members of staff in the NHS to learn from the stories shared. We hope this resource will contribute to workplace environments that is more supportive of our IMG colleagues.

Please find the links to the podcast series below:

- Introduction to the series :
