

Looking for support with developing your primary care workforce?

CPD Zone

The 'Go To' place for CPD for general practice

The screenshot shows the CPD Zone website interface. At the top is a purple navigation bar with links for Home, About us, News, Services, Resources, CPD Zone, and Contact us, along with a search box. A left-hand sidebar contains a list of menu items: Workforce development, Across Thames Valley, CPD calendar, CPD blog and news, Transforming Primary Care, Resources by profession, Resources by topic, CPD for you, Clinical educators, Training Providers, Update and news services, Driving up quality, and Involving patients. The main content area features a purple header with 'Home' and 'CPD Zone'. Below this is a welcome message: 'Welcome to the CPD zone, devoted to supporting everyone working in general practice across Thames Valley.' This is followed by three bullet points: '> CPD calendar', '> Resources by profession', and '> Resources by topic'. A quote follows: '"Whether you are looking to get ahead or keep up to date, build your confidence or increase your knowledge, and to be energised and inspired, the evidence is that "CPD is seen to improve practice and performance". A study to assess the impact of CPD on doctors' performance and patient service outcomes, GMC, 2012.' Below the quote is another bullet point: '> Tell others about this great resource using the CPD Zone publicity flier'. To the right of the main content is a 'Calendar' section with a calendar icon, the text 'CPD News', and three bullet points: '> PM Development – a consultation', '> New NHS leadership development framework', and '> Practice manager networking event'. At the bottom of this section is an orange button labeled 'CPD News'. Below the main content is a light blue box containing an image of a laptop, tablet, and smartphone, the text 'Pin this website to your mobile device: instructions here.', and a paragraph: 'The CPD Zone is brought to you by Health Education Thames Valley primary care CPD team, part of the GP School, in association with Oxford Health FT Library. Learn about the work of the HETV Workforce Development Team'. Below this is a 'Please note' section: 'Please note: the inclusion of information about any course or event here is not a guarantee of quality – and carries no formal endorsement by Health Education Thames Valley.'
