## 'Hot Topics' GP Update Course on Tuesday 14th January 2020

NB Medical is delighted to be working with the Royal Berkshire Hospital to run a Hot Topics GP Update course on Tuesday 14th January 2020.

For 21 years NB Medical Education has been the market leader in running GP Update courses in the UK and Ireland, with over 20,000 GP's attending our courses per year. We are passionate about primary care, and committed to helping busy primary care professionals practice evidence-based medicine in an easy, time efficient way.

Our teaching is focused on the patient, the problems they bring us and how best we can help them.

**For more information please contact:**  
**Tel:**(0191) 5197293 **Website:** [www.nbmedical.com](http://www.nbmedical.com)

## Course Information

The “**Hot Topics**” course consists of a series of short ‘TED-style’ engaging presentations blending evidence and cases, followed by discussion which may have an impact on your practice. The course comes with a number of extra resources to give it incredible ‘added value’

- A fully referenced book with recent summaries of the evidence for approximately 150 clinical Hot Topics commonly seen in primary care. Most of our delegates use this every day, like they use the BNF. All of the material is up to date and the material is completely 100% independent from any external influence.
- 12 months access to the on-line electronic version of the book which is instantly searchable. All the original references and resources for GPs (e.g. links to on-line clinical calculators) and patients (e.g. patient information leaflets) are hyperlinked and just one click away.
- A CPD tracker with which you can track your CPD, including external CPD and your work with the book. At the end of the year with just one click it will collate all of this into a single pdf summary for your appraisal
- **NEW** - The NB Medical App giving you access to the content from your course day in a fully searchable mobile friendly format on both iOS and Android devices.

### Continuing Professional Development with NB Medical

Each delegate will be presented with a certificate of attendance awarding 3 CPD credits for a half day course or 6 points for a full day course. The “**Hot Topics**” course is accredited by the Royal College of General Practitioners. On accrediting the course, the RCGP assessor commented that:

*‘The Hot Topics GP update course is an excellent course with outstanding feedback from participants. The course is clearly designed with busy GPs in mind. The KISS summaries and Guide are an innovative idea to reinforce the course content and learning materials. It is good to note an emphasis on leadership, teaching, audit and commissioning in addition to relevant clinical topics.’*
